I have now missed up to 29 days of learning. This is 6 whole weeks of school, the same as the summer holidays! As well as my learning, I might start to struggle with friendships and feel left out.

By the end of my school year, I will have had up to 38 days off - 7 weeks that I haven't been in class or seen my friends... longer than my summer holiday! I will find it difficult to understand my lessons, have close friendships and feel confident at school.
